

## EuroLam louvre grill AWW 320 / 550

### Design description:

- Acoustically effective weather protection grill for installation in vertical façade
- Frame and blades made of non-insulated, extruded aluminum profiles
- Aerodynamic aluminum blades circumferentially framed
- Integrated sound-proof package made of abrasion-proof mineral fibre

### Profile dimensions:

- Overall frame depth 320 und 550 mm
- Face width of frame 64 mm

### Surfaces:

- Profiles anodized, powder or wet paint coated possible according to RAL, NCS, DB. Special colors possible.

### Possible sizes:

- Minimum frame width = 300 mm
- Maximum frame width = 2500 mm
- Blade height fix

### Area of application:

- Sound level reducing ventilation

### Technical values:

- Tested relating to EN 13141-1 2004-05 part 1
  - o **AWW 320** and **AWW 550**  
Flow rate coefficient  $C_v$   
0,18 bis 0,27
- Tested relating to DIN EN ISO 717-1
  - o Average sound level reduction **AWW 320** – 10-20 dB
  - o Average sound level reduction **AWW 550** – 15-31 dB
